Since 1985, *Alternative Press* has been an important independent voice for music fans looking for more than the commercial option. What started out as a local fanzine more than 25 years ago has developed into an internationally distributed magazine covering the contemporary punk scene. The paintings, drawings, photography and sculpture in the exhibition reflect the diversity that has appeared in the pages of *Alternative Press* over the last quarter-century.

"I have been witness to so many changes over the years in the publishing world. A constant has been the talented artists each year," says publisher Norman Wonderly. "This exhibit showcases amazing musicians whose talent extends beyond the music stage."
